## Water & Waste Water

### Grease Traps

Ozzi Kleen Grease Traps are built to last. Made from durable polyethylene, they are lightweight and easy to manoeuvre and install. These Grease Traps are ideal for use in applications where small to medium sized Grease Traps are required and where appearance, longevity and reliability are important.

All Ozzi Kleen Grease Traps come with a welded Akatherm inlet and outlet to accept 100mm DWV PVC pipe.

### KEY BENEFITS

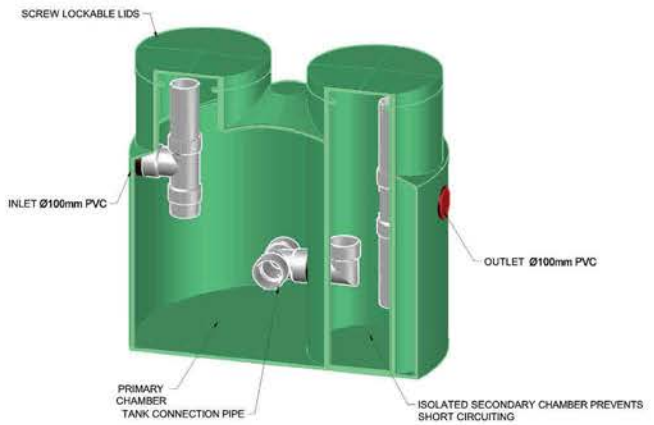

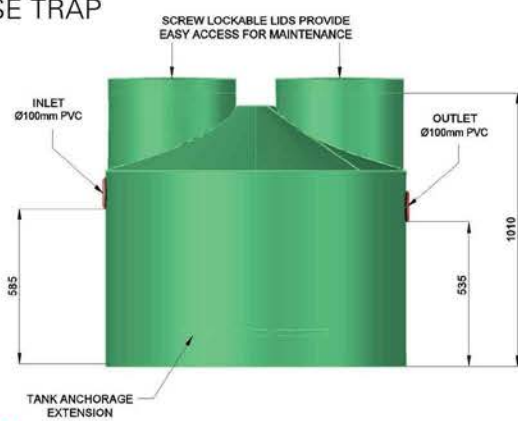

- Lightweight, easy to manoeuvre and install
- Weight for weight stronger than concrete
- UV resistant
- Up to 5000L capacity
- Easy to clean
- Poly is non porous so does not absorb smell
- Single piece design, no root intrusion
- Does not crack or corrode like steel and concrete
- A variety of shapes, sizes and colours available
- 15 year warranty on all traps
- Designed for below or above ground use
- Can be incorporated into multiple systems or kitchens
- Extra inlets are easy to install if needed
- Extensively used in both commercial and domestic applications
- Easily modifiable to suit your application and specifications
- Low visual impact design
